Line Dances: Flourished Borders

The offhand flourish is a powerful design tool that can be used to create imaginative border designs. Using straight lines, refined curves and painted foliate elements we can create stunning borders and accents that will enhance your script lettering.

Your flourishes can become as detailed and intricate as you like as we progress through the class. Colour can be added with watercolour or coloured pencil or you can choose to leave your designs in pen and ink.

This class is non-stop play!!! Open to all skill levels.
